

ALTA[®]

GUEST SEATING

STANDARD ALTA - UNDERSTATED ELEGANCE

4-LEG ARMLESS CHAIR
WITH STACKING DOLLY

4-LEG ARM CHAIR

SLED-BASE ARM CHAIR

STOOL

Standard Alta, with its sleek lines, stylish looks and modern design, updates any room. Whether in a conference room, waiting room, training room, food service area or office guest area, all who experience Alta Standard will appreciate the ergonomic design complete with contoured seat and back support, as well as the comfort of the foam-cushioned and upholstered seat and backrest.

As refined as it is in design, it also is in function. Stackability offers easy, organized storage and saves valuable space. Standard Alta also boasts sturdy, well-structured legs with a "kick-back" style to enhance structural integrity, stability and resistance to wear. Seats can be ganged to help maintain and simplify seating arrangements.

Leg chair is stackable. Sled-base chair can not be stacked.

Glides - Rubber, non-skid glides work well on hard floor surfaces.

Arms - Nylon arms are available in several colors to help complement the frame colors.

Wall Saver - Alta's wall saver leg keeps the chair from marring the wall.

Seat Gangers - Steel wire gangers are available to meet the needs of ganging no arm chairs.

Arm Gangers - The arm ganging option simplifies seating arrangements.

Alta Standard Stool - is a fine addition to the product line. The foot rest provides comfort while in the seated position.

Well-structured, sturdy, smart and functional. That's Alta Basic. The frame is 7/8" o.d. X 13-gauge tubular steel with a "kick-back" leg style. The Alta Basic maintains superb structural integrity, stability and resistance to wear. It's also stackable, which saves valuable space and makes for more organized, convenient and easy storage.

Comfort is also an advantage with Alta Basic. It offers a 3/8" thick polypropylene inner seat with a 3/4" thick polyfoam cushion, and 3/4" thick polyurethane foam backrest. Both are upholstered for added comfort.

Leg chair is stackable. Sled-base chair can not be stacked.

BASIC ARM CHAIR

Arm - Alta Basic's arm is a continuous part of the frame. The curves on the arms flow with the overall lines on the chair.

Steel Glide - The steel glide is the perfect match for most floors. Plastic glides are also available.

Curved Leg - Alta Basic's curved leg adds an aesthetically pleasing look to the chair and adds to the front stability on the chair.

Poly Back - The poly back panel complements the total chair appearance and adds long lasting durability.

ALTA BASIC - INTELLIGENT FUNCTIONALITY

POLY CHAIRS, TABLET ARM CHAIRS & XL SEATING

ALTA XL

ALTA POLY ARMLESS

ALTA UPHOLSTERED TABLET ARM

Perfect for any educational setting, Alta Tablet Arm chairs are built to withstand the rigors of continuous use—people getting in and out, flipping the tablet up and down, pressing on the tablet when writing, as well as being moved around the room time after time.

The design of the Alta tablet arm chairs are sturdy yet functional, modern yet simple. The well-structured legs are 7/8" O.D. X 13-gauge tubular steel, and the "kick-back" leg feature enhances the chair's integrity, stability and durability. Alta tablet arm chairs are available in left- or right-handed models - both of which offer a tablet that flips up for easy access and seating. The tablet is made of multi-layer plywood with a laminate top for a durable, smooth writing surface.

The Alta tablet arm chairs are available in polypropylene or with the back and seat foam cushioned and upholstered.

Alta is also available in an XL version, to provide comfortable seating for all individuals. Since people differ in size, their seating should too. Alta XL is built with 1" diameter tubing, using specialized, high strength steel. The Alta XL chair measures 35-3/8" wide (32" without arms), 25-1/4" deep and 37" tall. The seat is 30" wide and 20" deep. XL chairs can be stacked up to a maximum of 4 chairs high.

Kick-Back Leg - Wall saver leg design helps prevent any possible marring to the walls.

Flip-Top Tablet Arm - Allows for easy access in and out of the chair.

Back - Alta's compound curved back is made of 9-ply hardwood plywood.

Alta XL - Oversized seating is available with or without arms. Approved for 24/7 use.

Tablet Arm Attachment - The tablet arm is welded to the frame providing necessary structural integrity.
